NEHR Speedcraft, LLC is now offering the **SuperKit** for the those that want to build their own hot rod! Let NEHR Speedcraft take care of all the hard points and the engineering and you have the fun of finishing off the car and being part of your T-Rat build experience. The **SuperKit** starts with the Chassis Kit which is a true bolt together kit. We then added all the other unique components that make up the T-Rat look and feel. Beyond the chassis phase of the kit, there is only minor welding, trimming, and fitting required for the body phase of the build. For under \$12,000.00, this will get you as close to a turnkey car as possible, but with the great experience of building your own ride!

SuperKit

- Chassis Kit (see Chassis Kit for details)
- Fiberglass Model T Body
- Speed Blister (creates more footspace for driver)
- Fiberglass Transmission Tunnel
- Interior Package (floor, seats, side panels, back pad - requires trimming and stretching)
